AMENDMENTS

In the Specification

(1) Please add the following new paragraph at page 5, between lines 7 and 9 of the specification, in the "Brief Description of the Drawings" section:

Figure 22 illustrates a computer system, in accordance with certain exemplary embodiments.

(2) Please add the following new paragraph at page 15, between lines 3 and 4 of the specification, in the "Detailed Description of the Exemplary Embodiments" section:

Figure 22 illustrates aspects of an exemplary computing environment in which an embodiment of the invention is designed to operate. For example, exemplary computing system 2205 can comprise software modules performing the processes described herein, such as the modules 230-270 illustrated in Figure 2 and described above. The software modules can be stored in exemplary computer-readable storage device 2220 and be executed by exemplary CPU 2210 via exemplary computer-readable memory 2215. Computing system 2205, computer-readable storage device 2220, CPU 2210, and computer-readable memory 2215 are conventional computer components well known to those of ordinary skill in the art. Other embodiments of the invention may operate in other types of computing environments.
